The United States Senate has passed a bill for public buildings at Columbus, Ohio.

The Kentucky house has passed a bill to prevent the destruction of fish in the Kentucky River.

REV. THOMAS K. BEECHER says of the Republican party: "It nears its end. But we could wish it might die decently, under assault; and not indecently, its zealots robbing the graves of its great men, to pound each other with the thigh bones of dead heroes for war clubs."

The present Cabinet has seemingly been put under bonds to keep the peace and to kill any Presidential bees that may creep into the bonnets of its members. It is the hands-in-its-pockets Cabinet. This may not be anything to be particularly proud of, but it is an improvement at any rate on the old run of hands-in-the-Treasury Cabinets.

MR. A. J. AUXIER the new United States Marshal for the Eastern Kentucky district, was born in Johnson county, is about thirty-five years old and has a good record as a public officer. He has practiced law in Pike county since 1867 and has served as County Attorney and Attorney for the Commonwealth. The appointment is said to be a very good one.

The Clark railroad bill passed by the House, with two amendments, has passed the senate also, with the exception of one of the amendments, that offered by Mr. Offut, of Bourbon, providing that the representatives in the Congressional districts and the senators shall each furnish a name and from the list so supplied the Governor shall appoint the railroad commissioners.

The Kentucky Senate has passed the bill to provide for ascertaining the number of citizens entitled to vote for Representatives within the State at the next general election to be held in August, 1883. It provides that the county court in each county shall at said election select two discreet citizens for each election precinct within the county who shall be styled Tellers, and whose duty it shall be to make and return in like manner with the returns of election for Governor, except that the returns may be made by said Tellers within ten days after the election, a statement of all the citizens entitled to vote within their respective precincts for Representatives at said election. It is provided also that the Tellers shall be selected from and belong to different political parties, if there are two or more political parties in the precinct from which to appoint. The operation of the bill is made the only means for ascertaining the number of citizens entitled to vote for Representatives within the State, so as to ascertain whether a majority of such citizens vote for calling a Constitutional Convention.

A CORRESPONDENT of the Maysville BULLETIN says blue grass is native to the soil of Bourbon county, Ky., but a friend of ours is in possession of papers which show that blue grass was raised in Pickaway county, this State, before our Kentucky neighbors knew of its existence, and that the first seed of the kind planted in Kentucky was taken from Pickaway county by parties from the "Dark and Bloody Ground" who had visited that section. —*Portsmouth Times.*

We trust the Times will print the papers referred to and enlighten us as to who the parties from the "Dark and Bloody Ground" were, and when their visits were made.
